

DALILA KHENINE

Cybersecurity Engineering Student | SOC | Threat Hunting | Incident Response | Penetration Testing

Ben Arous, Tunisia | +216 55 370 559 | Dalilatra22@gmail.com | linkedin.com/in/dalila-khenine

PROFILE

Cybersecurity engineering student with hands-on experience in SOC operations, SIEM monitoring, threat hunting, incident response, vulnerability assessment, and penetration testing. Built SentinelSOC, a mini-SOC platform integrating Wazuh-based security monitoring, incident workflows, PostgreSQL, dashboards, and infrastructure monitoring. Strong practical foundation across defensive security, controlled offensive testing, Linux, and security automation.

CYBERSECURITY EXPERIENCE

Cybersecurity / SOC Intern | Persista Technology

Jul 2026 - Sep 2026

Tunisia

- Designed and delivered SentinelSOC, a mini-SOC platform for centralized security monitoring, alert triage, incident investigation, and reporting.
- Integrated Wazuh with the Sabilouna web application and Nginx logs to collect, correlate, and analyze real security events.
- Implemented and tested detection scenarios for failed authentication, brute-force attempts, reconnaissance, suspicious access, server errors, and file-integrity events.
- Built security workflows with FastAPI, PostgreSQL, and Streamlit for alert ingestion, ticket creation, analyst investigations, incident lifecycle tracking, and PDF/CSV reporting.
- Implemented secure Admin/Analyst role-based access control and integrated Prometheus/Grafana for service availability and infrastructure monitoring.
- Worked hands-on with Wazuh, Linux, Kali Linux, Docker, Python, Bash, Nginx, PostgreSQL, FastAPI, Streamlit, Prometheus, Grafana, and Git/GitHub.

SOC Analyst Intern | Keystone MutuelleVille

Feb 2024 - May 2024

Tunisia

- Monitored and analyzed security events in a SOC environment, supporting alert triage, investigation, and continuous security monitoring.
- Conducted threat-hunting and log-analysis activities to identify suspicious behavior and potential indicators of compromise.
- Performed controlled attack simulations and vulnerability assessments to evaluate weaknesses in systems and web applications.
- Supported incident investigations, evidence review, and security reporting, documenting findings and recommended remediation actions.
- Used security monitoring and analysis tools to review system activity and collaborated with the security team to strengthen the overall security posture.

ADDITIONAL TECHNICAL EXPERIENCE

IT / Software Development Intern (Academic PFA) | Staras IT

Jul 2023 - Aug 2023

Tunisia

- Contributed to the development of a business-management application delivered for ECO DEC Djerba.
- Worked on functional modules for employee management, fleet management, vehicle records, maintenance tracking, purchases/sales, and stock monitoring.
- Contributed to dashboard views for operational indicators and vehicle information, including GPS/localization and trajectory-tracking features.
- Participated in the design of administrative interfaces, system settings, activity logs, and user-facing management workflows.

TECHNICAL SKILLS

SOC / Blue Team: SOC operations, SIEM monitoring, alert triage, threat hunting, incident response, log analysis and correlation, Wazuh, Splunk, ELK Stack

Offensive Security: Penetration testing, web application security, vulnerability assessment, Active Directory security, Burp Suite, Nmap, Metasploit

Systems & Networking: Linux administration, Nginx, Wireshark, network security fundamentals, RHCE/RHCSA-level Linux skills

Development & Automation: Python, Bash, FastAPI, Streamlit, PostgreSQL, Docker, Git/GitHub, HTML, CSS, JavaScript

Cloud & Monitoring: AWS, Azure, GCP fundamentals; cloud-security concepts; Prometheus; Grafana

CERTIFICATIONS

Offensive Security

- CRTP - Certified Red Team Professional (Jul 2026)
- eCPPT - Certified Professional Penetration Tester (Mar 2026)
- eWPTX - Web Application Penetration Tester eXtreme (Feb 2026)
- eWPT - Web Application Penetration Tester (Jan 2026)
- eJPT - Junior Penetration Tester (Jan 2026)
- CAPT - Certified Associate Penetration Tester (Jan 2026)

AI Security

- eAIS - AI Systems Security Specialist, INE (Aug 2026)

Defensive Security / Blue Team

- eEDA - Certified Enterprise Defense Administrator (Aug 2026)
- eCTHP - Certified Threat Hunting Professional (May 2026)
- eCIR - Certified Incident Responder (May 2026)
- eSOC - Security Operations Center Analyst (May 2026)
- Cyber Threat Intelligence 101 (Feb 2026)
- Digital Forensics & Incident Investigation (Feb 2026)

Linux & Cloud

- RHCE - Red Hat Certified Engineer (Mar 2026)
- RHCSA - Red Hat Certified System Administrator (Oct 2025)
- ICCA - INE Certified Cloud Associate (Apr 2026)

EDUCATION

Engineering Degree in Cybersecurity (ongoing) | TEK-UP University

Tunisia

Dec 2024 - Present

Bachelor's Degree in Information and Communication Technologies | ISTIC

Tunisia

Sep 2021 - May 2024

SELECTED PROJECTS

ThreatMind - AI Sentinel

- Developed and presented a cybersecurity concept using a Red AI to simulate attacker behavior and a Blue AI to detect, analyze, and respond to threats; awarded 2nd place at Digital Congress 2026.

WiFi Security Lab - Attacker & Defender | Python

- Built a controlled WiFi security lab to simulate Evil Twin and client deauthentication scenarios, scan wireless networks, configure a test access point, and detect rogue access points using BSSID duplication and ESSID similarity.
- Tested the lab with Kali Linux, Aircrack-ng, hostapd, dnsmasq, network tools, and Python scripts.

ADDITIONAL PROFESSIONAL EXPERIENCE

Talent Acquisition Specialist (Remote) | Staras IT

Canada

Mar 2021 - Jun 2024

- Managed IT candidate sourcing, pre-screening, interview coordination, recruitment documentation, and communication in a remote international environment.
- Maintained candidate databases and supported process improvement while ensuring accurate follow-up and a positive candidate experience.

LANGUAGES & ACTIVITIES

Languages: Arabic - Native | English - C2 (EF SET Certified), B2 (ONSET University Placement Test) | French - B1 / Intermediate

Activities: Member of Securinets Cybersecurity Club; cybersecurity workshops, hands-on labs, and Capture The Flag (CTF) challenges.
